## PROJECTS

### 1. Social Media & Real Time Messaging WebApp

Messenger is a real-time chat app built with the MERN Stack and Socket.IO, featuring instant messaging, secure authentication, and a responsive React.js interface. The application leverages MongoDB for persistent data storage and Node.js for scalable backend.

### 2. Blog Web Application

Our Blog Web App, Built with React Js, Node.js, and Mysql, facilitates easy creation, sharing, and easily management of blog posts. Featuring robust login, registration, and publish blog page.

### 3. Weather Web Application

Our Weather Web App provides real-time weather updates and forecasts. With a user-friendly interface and seamless search functionality using Weather Api.
